ABOUT ALCHEMY

Both our specialty cafe “Espresso Alchemy”, and boutique coffee roastery “Roasters Alchemy” share a theme. Alchemy represents an unyielding pursuit for excellence and the perfect coffee.

Alchemy is the predecessor of modern Chemistry, and also has it’s own set of elements indicated by symbols.

CREDENTIALS

2019	Coffee Quality Institute Certified Q Processing Professional
2015	Brazil Barista Championship Head Judge
2014	Indonesia Barista Championship Head Judge
2013	Hong Kong Barista Championship Head Judge
	World Barista Championship Certified Sensory Judge
	World Brewers Cup Championship Certified Judge
2011	Coffee Quality Institute Certified Q Grader

OUR STORY

Our story began in 2011. A Melbournian wanted to share the joy of coffee and café culture with Hong Kong. Thus, a small roastery and café was born. The quest for the perfect coffee took us through a phase of world competition judging, taking part in the development of baristas in Hong Kong and beyond – all the while, our strong wholesale operations saw us transforming the city's coffee scene alongside our partner cafes and restaurants. We take pride as a driving force beyond Hong Kong's coffee industry.

2016 was a year of change, where we laid down the judge's clipboard, to instead embraced our work at origin, thus beginning our Direct Trade program with coffee producers. We are now proud to represent producers from all round the world – roasting and brewing the literal fruits of their labour. Along the way, we have developed new coffees and processes with them, taking a supporting role in the achievement of the Cup of Excellence awards.

By now, our selection of coffees are unique in Asia and miles above. The vast majority of our coffees are purchased directly from our award-winning producers around the world.

Quality is an indispensable precursor, but our work doesn't end there. Through our Direct Trade relationships, we support the ethical and sustainable production of coffee, so to keep this caffeinated beverage available for years to come. We're talking about urging Environmental Sustainability, Social Sustainability and also Economic Sustainability in the production of coffees at our farms.

Thinking back, we never thought all this was ever possible. And in the same way, we look forward to what other exciting endeavors and achievements await us in the future.
